DARUVARSKE
TOPLICE

ENG

Numerous springs of healing thermal water, mineral mud sites, preserved historic buildings, beautiful historic landscape park, numerous medical and wellness facilities and also sports and recreational facilities make Daruvar Spa the perfect place for rest, rehabilitation and return to good shape. In the well-equipped departments, we perform the treatment of acute and chronic rheumatic diseases with the use of physical medicine and rehabilitation. In the field of medical rehabilitation, very good results are achieved in the postoperative rehabilitation of hips and knees prosthesis, corrective procedures on the extremities, extirpation of the disc and posttraumatic rehabilitation after injuries of the locomotor system. Physical therapy is performed under the expert supervision of superbly educated personnel on the modern equipment with natural therapeutic factors in which we have a very long tradition. Except thermal water (46,6°C) of acratotherme group, mineral mud – Fango (peloid) is also used as a natural healing factor.

Spa hotel Termal 3* has capacity of 275 beds in single and double rooms and suits. In the hotel, there is a multitude of facilities for a comfortable stay; pools with thermal water, restaurant, cocktail bar, café, wellness-spa oasis, fitness, gym, kiosk/gift shop, hair salon, etc.

Annex Arcadia 3*, beautiful historic building built in the 19th century. It has 12 rooms that complement the external beauty of the building together with the original setup of rooms, will make your stay an unforgettable experience. Restaurant Terasa is right next to Arcadia. Both buildings are located in the hearth of Julijev park, just a few minutes of easy walk from the centre of the town, through a nice cultivated park. Julijev Park is one of the most important and oldest landscape garden in continental part of Croatia with exceptionally rich plant fund. Park has a total area of 9.5 hectares. Some trees older than 150 years, the flower gardens, features of Baroque art and elements of the English landscape style embellish this unique park. Today's appearance of the park, conceptually and stylistically did not change for 150 years, which gives it a priceless historical and horticultural value. There are several historical buildings in the park with valuable cultural and architectural value.
